

Acoustical Sealing Tape

Vinyl Seam Tape

Heavy duty, very tacky seam tape to be used when soundproof barrier seams occur on the face of the wall studs. Vinyl Seam Tape will prevent buckling of the Soundproof Barrier seams before drywall is installed.

Dimensions: 2 x 150 rolls

Foil Seam Tape

Used for acoustically sealing between stud/joist seams in Soundproof Barrier and all Floor Underlayments. Foil Seam Tape will insure that the seams remain as a vapor barrier in flooring applications over concrete.

Dimensions: 2.5 x 150 rolls, self adhering

Reinforced Foil Tape

Used with Acoustical Pipe Wrap, this tape will not tear, and maintains vapor barrier requirement on HVAC and plumbing pipes, fan boxes, and ducts.

Dimensions: 3 x 150 rolls
